>200 Advanced Prompts from GoTeam

In generating prompts in ChatGPT, it is crucial to include the following components to provide a clear direction for the conversation:

Context: The context sets the stage for the discussion and provides background information or a specific situation that the conversation will revolve around. Including the context helps ChatGPT understand the setting and allows it to generate more relevant and meaningful responses. For example, if the context is about a technology conference, ChatGPT can tailor its responses to that particular theme.

Perspective: Including the perspective helps shape the point of view from which the conversation should be approached. It provides guidance on the desired stance or attitude that ChatGPT should adopt when generating responses. By specifying the perspective, you can ensure that the generated conversation aligns with a particular viewpoint, such as that of an expert, a novice, a skeptic, or a specific character. This helps make the generated responses more consistent and appropriate for the intended purpose.

Audience: Determining the target audience of the conversation prompts helps ChatGPT tailor its responses accordingly. It allows the language model to adapt its tone, complexity, and level of detail to match the needs and expectations of the intended recipients. Whether the audience is general readers, students, professionals, or even fictional characters, identifying the target audience enables ChatGPT to generate responses that resonate effectively with them.

Outcome: Defining the desired outcome or objective of the conversation prompts helps guide ChatGPT towards generating responses that contribute to achieving that specific goal. The outcome can be informative, persuasive, entertaining, or even instructional, depending on the purpose of the conversation. By clearly stating the intended outcome, ChatGPT can generate responses that align with the desired result, ensuring the conversation progresses in a purposeful and coherent manner.

By including these components—context, perspective, audience, and outcome—in the prompts for ChatGPT, you provide the necessary guidance to generate responses that are contextually relevant, aligned with the intended perspective, suitable for the target audience, and contribute to achieving the desired outcome. This helps ensure a more meaningful and engaging conversation experience.

Sample Prompts:

Context: *We need to hire a new full stack ruby on rails developer to join our development team.*
Perspective: *Please act as a senior recruiter working in the development industry*
Audience: *The reader of the position description*
Outcome: *Please write a position description that includes sections with the following headings: Overview, Key responsibilities, Qualifications, Competencies Performance Expectation. Use bullet points for each section.*

Context*: Your company is preparing a presentation to pitch a new product to potential investors.*
Perspective*: Assume the role of a product manager leading the presentation team.*
Audience*: The potential investors attending the pitch presentation.*
Outcome*: Develop a compelling slide deck that effectively highlights the unique features, benefits, and market potential of the new product. Ensure the slides convey a clear value proposition and captivate the investors' attention. Additionally, write a concise script for the presentation, outlining key talking points and the desired flow of the pitch.*

Context*: Your accounting firm is developing a guidebook on tax planning strategies for small businesses.*
Perspective*: Assume the role of a tax expert and guidebook author.*
Audience*: Small business owners and entrepreneurs looking for practical tax planning advice.*
Outcome*: Create a comprehensive guidebook that covers various tax planning strategies for small businesses, including deductions, credits, compliance requirements, and tax-saving tips. Organize the guidebook into sections based on different aspects of tax planning, such as business expenses, depreciation, employee benefits, and legal considerations. Include real-life examples and case studies to illustrate the application of tax strategies in different scenarios. The guidebook should provide actionable insights and help readers optimize their tax positions while remaining compliant with tax regulations.*

Give ChatGPT a role.

Please act as a…

1. Please act as an Advertising Manager
2. Please act as an Affiliate Manager
3. Please act as an Affiliate Marketing Manager
4. Please act as an Agile Coach
5. Please act as an Application Developer
6. Please act as an Artificial Intelligence Engineer
7. Please act as an Art Director
8. Please act as an Automated QA Tester
9. Please act as a Brand Strategist
10. Please act as a Business Systems Analyst
11. Please act as a Channel Sales Manager
12. Please act as a Chief Financial Officer
13. Please act as a Content Marketing Manager
14. Please act as a Copy Editor
15. Please act as a Customer Success Manager
16. Please act as a Data Entry Specialist
17. Please act as a Digital Product Manager
18. Please act as an E-commerce Manager
19. Please act as an Energy Specialist
20. Please act as an Environmental Engineer
21. Please act as an Event Planner
22. Please act as an Executive Recruiter
23. Please act as a Health & Safety Coordinator
24. Please act as an Inbound Sales Specialist
25. Please act as an Industrial Engineer
26. Please act as an Information Security Analyst
27. Please act as an Inside Sales Representative
28. Please act as an International Business Development Manager
29. Please act as an Investment Manager
30. Please act as an IT Security Manager
31. Please act as a Market Strategist
32. Please act as a Mechanical Engineer
33. Please act as a Mobile App Developer
34. Please act as a Network Engineer
35. Please act as a Packaging Engineer
36. Please act as a Personal Trainer

37.   Please act as a Product Marketing Manager
38.   Please act as a Public Speaking Coach
39.   Please act as a Quality Assurance Engineer
40.   Please act as a Research Scientist
41.   Please act as a Sales Manager
42.   Please act as a Software Developer
43.   Please act as a Supply Chain Analyst
44.   Please act as a Technical Writer
45.   Please act as a User Researcher
46.   Please act as a Video Editor
47.   Please act as a Virtual Assistant
48.   Please act as a Web Designer
49.   Please act as a Wealth Manager
50.   Please act as a Wellness Coach

PRO TIP: If you would like an expanded list, kindly follow these steps: Copy the existing list and paste it into ChatGPT. Then, request ChatGPT to generate an extension of the list by adding an additional 40 positions.

STEP TWO

Give ChatGPT guidance on the outcome you desire.

For example…

51.   Analyze the following text
52.   Brainstorm to find
53.   Code a webpage
54.   Conduct a survey
55.   Conduct a usability test
56.   Create a marketing strategy
57.   Create a podcast series
58.   Create an infographic
59.   Create a podcast series
60.   Create a prototype
61.   Design a logo
62.   Design a user interface (UI) layout
63.   Develop a app
64.   Develop a game
65.   Develop a business plan

66.   Develop a prototype
67.   Edit a manuscript for a publishing company
68.   Edit a podcast
69.   Edit a video
70.   Evaluate a company's financial statements
71.   Evaluate user experience (UX) of a website or app
72.   Explain to a 5-year-old child
73.   Facilitate a meeting
74.   Facilitate a conflict resolution session
75.   Generate leads for a sales team
76.   Host a talk show
77.   Implement a content marketing strategy
78.   Implement an email marketing campaign
79.   Implement a social media campaign
80.   Install and configure a software system
81.   Install and configure network/security devices
82.   Introduce a loyalty program for a brand/retailer
83.   Introduce a new product or service to market
84.   Illustrate a children's book
85.   Layout a print publication
86.   Manage a social media community
87.   Manage a virtual or remote team
88.   Make a budget spreadsheet
89.   Optimize ad campaigns for better ROI
90.   Optimize website performance for search engines (SEO)
91.   Organize a charity event
92.   Organize a conference or workshop
93.   Organize a fundraising event for a non-profit organization
94.   Organize a team-building event
95.   Personalized gift making
96.   Plan a wedding
97.   Prepare a training manual
98.   Produce a short film
99.   Produce a web series
100. Provide customer support
101. Provide tutoring services
102. Proofread a manuscript
103. Research a topic
104. Research and write a blog series
105. Research and write a white paper
106. Schedule appointments for a busy executive

107.   Schedule social media content
108.   Script a podcast
109.   Set up an affiliate marketing program
110.   Set up an online store
111.   Shoot and edit a music video
112.   Shoot and edit product photos
113.   Summarize to find
114.   Teach a language
115.   Teach a skill or subject online
116.   Test a mobile app
117.   Test a website for browser compatibility
118.   Translate a document
119.   Translate subtitles for a video
120.   Translate a website text or localization for a brand
121.   Troubleshoot a technical issue
122.   Visualize data
123.   Write an academic paper
124.   Write an essay
125.   Write a blog article
126.   Write a grant proposal
127.   Write a press release
128.   Write an abstract

PRO TIP: If you're seeking further inspiration, you can follow these steps: Copy the current list and input it into ChatGPT. Append the following prompt to the existing list: "*Please extend this list of prompts that I use with ChatGPT to express the outcomes I am looking for when asking for assistance' with an additional 20 ideas. Kindly ensure that the extended list is ordered alphabetically and numbered for clarity. Thank you!*"

Prompt ChatGPT with restrictions.

129.	Avoid using adjectives
130.	Avoid using contractions
131.	Avoid using technical jargon
132.	Compose a haiku
133.	Include historical references
134.	Incorporate humor
135.	Limit to 100 words or less
136.	Only use primary sources
137.	Only use secondary sources
138.	Only use peer-reviewed sources
139.	Provide examples from personal experience
140.	Provide step-by-step instructions
141.	Restrict to a specific word count range
142.	Restrict to only using bullet points
143.	Restrict to only using interrogatives
144.	Use colloquial expressions
145.	Use rhetorical questions
146.	Use the passive voice
147.	Use third-person perspective
148.	Write in a specific genre (e.g., romance, horror, sci-fi)
149.	Add academically validated sources
150.	Add pop culture references
151.	Adopt a formal tone
152.	Avoid using adjectives
153.	Avoid using contractions
154.	Avoid using technical jargon
155.	Code in HTML/CSS
156.	Compose a haiku
157.	Include historical references
158.	Incorporate humor
159.	Limit to 100 words or less
160.	Only use primary sources
161.	Only use secondary sources
162.	Only use peer-reviewed sources
163.	Provide examples from personal experience
164.	Provide step-by-step instructions
165.	Restrict to a specific word count range

166. Restrict to only using bullet points
167. Restrict to only using interrogatives
168. Use colloquial expressions

PRO TIP: If you're in need of further ideas, please follow these steps: Copy the current list and input it into ChatGPT. Alongside the copied list, add the following request: *"Please extend this list of prompts that I use with ChatGPT to incorporate restrictions on the outcomes I am looking for when seeking assistance,' and kindly provide an additional 20 ideas. To ensure clarity, please organize the extended list in alphabetical order and number each prompt accordingly. Thank you."*

STEP FOUR

Prompt ChatGPT with formats.

169. Answer with an analogy
170. Answer with bullet points
171. Answer with code
172. Answer with emojis
173. Answer with markdown
174. Answer with a numbered list
175. Answer with a summary
176. Answer with a table
177. Create a flowchart
178. Create a mind map
179. Create a timeline
180. Draw a diagram
181. Draw a graph or chart to represent data
182. Generate a spreadsheet
183. Provide a decision tree
184. Provide a list of pros and cons
185. Provide a checklist
186. Provide a script or screenplay
187. Provide a storyboard
188. Provide a SWOT analysis
189. Provide a Venn diagram
190. Provide a video demonstration
191. Provide a wireframe for a website or app
192. Provide an infographic
193. Use a case study to illustrate the solution

194. Answer with an analogy
195. Answer with bullet points
196. Answer with code
197. Answer with emojis
198. Answer with markdown
199. Answer with a numbered list
200. Answer with a summary
201. Answer with a table
202. Create a flowchart
203. Create a mind map
204. Create a timeline
205. Draw a diagram
206. Draw a graph or chart to represent data
207. Generate a spreadsheet
208. Provide a decision tree
209. Provide a list of pros and cons
210. Provide a checklist
211. Provide a script or screenplay
212. Provide a storyboard
213. Provide a SWOT analysis
214. Provide a Venn diagram
215. Provide a video demonstration
216. Provide a wireframe for a website or app
217. Provide an infographic
218. Use a case study to illustrate the solution
219. Use a Gantt chart to show project timeline
220. Use a mind palace to organize information
221. Use a mind sweep to brainstorm ideas
222. Use a visual metaphor to explain a concept
223. Use an acrostic poem to summarize information

PRO TIP: If you're seeking additional ideas, please follow these steps: Copy the current list and input it into ChatGPT. Then, include the following request: *"Please extend this list of prompts that I use with ChatGPT by incorporating different formats for the outcomes I am looking for when seeking assistance. Kindly add 20 more ideas to the list. To ensure organization, please arrange the extended list in alphabetical order and assign numbers to each prompt. Thank you."*

Creating Prompt Templates for Reuse

Using AI speeds up your output. However, it also sets a new baseline that you will desire to improve. The key to this is to use templates.

Here is how we create Prompt Templates, including a new template to create a script for a promotional video for our new AI Powered Sales Role-Playing tool called **RolePlayAI** https://go.team/realplayai

Creating Prompt Templates 📝 - Watch Video
